

# Commitment to Customer Service

**"Our Goal is to Help You Achieve Yours"**

## Quality - Product "Traceability"

Cromwell has complete **ISO9001** certification and has fully qualified assurance and staff.

## Ethical & Sustainable

Cromwell makes every effort to ensure all products are manufactured in conformance with good employment practice and in keeping with its **ISO14001** standard for the use of sustainable resources.

## Product Support

Product and application advice is available from all of our distribution centres worldwide. The local teams have further support from our specialist technical division and application engineers who provide advice, training, CAD design, tooling packages and R&D to suit customer requirements.

## Product & Service

### Quality Assurance

### Commercial

# Consolidation - Reduce your Purchasing Costs

Consolidating all your consumables spend with Cromwell can save you money by reducing the costs associated with dealing with multiple suppliers. With over 26,000 products in this catalogue and access to thousands more (see [www.cromwell.co.uk](http://www.cromwell.co.uk)), Cromwell can supply all your consumable needs, allowing you to control your spend whilst guaranteeing quality, performance and continuity of supply.

# e-commerce - Downcost your Supply Chain

## B2B Business to Business (Web Trading)

Secure login. View own pricing. Individual user configuration. Customer's own administrator. Complete budgetary controls. On line sales and invoice history. Individual user shopping lists. Standard and draft order functionality.

- Bespoke Catalogues
- Order Approvals
- Budgetary Control
- Access to Order History
- Comprehensive Reporting Suite
- Request for Quotation
- User Configuration
- Personalised Home Page
- Access to SDS Sheets

# Supply Chain

- Advanced Stock Management Systems ensure "Local Ex-stock Availability".
- Established re-supply chain by air, sea and overland freight movement from the World Distribution Centre to our local distribution centres.
- Courier services for urgent or non-standard supply requirements.
- Proven freight forwarding and logistics partnerships.
- Local support from our worldwide network of Distribution Centres and dealers.

# Global Sourcing

## Global Sourcing of Manufactured Products:

- |                    |               |
|--------------------|---------------|
| Injection Moulding | CNC Machining |
| Drop Forging       | Casting       |
| Fabrication        | Woodworking   |
| Textiles           | Electronics   |

Sourcepoint was established to help customers of Cromwell source more competitively. Access to a global supply base helps reduce cost and improve product availability, with established sources across **Europe, India, China, Australasia, Africa and South East Asia.**

Our presence as both a global supplier and purchaser brings knowledge and

experience when finding new sources around the world, from identification through to product inspection.

Enquiries for all types of component, product or material will be considered. We have understanding of most production methods and legislation including **RoHS** and **REACH**, as well as a **UKAS** accredited calibration laboratory.

This new business can be combined with our regular shipments from around the globe to reduce costs. Our local network of contacts and partners can also buy products on our behalf with further knowledge at a ground level.

## Globally Sourced Products To Your Door

## How to Order

When choosing products from our catalogue, please select the "Order Codes" by following the example shown here.

1. Note the six figure "Product Group" code

Number of Pieces	Weight	Order Code	List Price/1	Offer Price/1
6	620g	<b>KEN-020</b>	-	-
		<b>-1160K</b>		

2. Add the remaining five figure "Item" code

Now with your complete Order Code, simply add your desired quantity and our friendly and experienced sales team are ready to take your order.

e.g. Order Code: **KEN-020-1160K**  
Quantity: **1**

## Pricing - Quality Industrial Supplies at Very Competitive Prices

**List Prices** All list prices are based on current manufacturing costs, ex-works and exclude VAT and other Government levies. Quotes remain valid for 30 days only, unless by written agreement and subject to change in line with increase in manufacturing and supply chain costs.

**Discounts** Customers can negotiate purchase discounts on products where they have a regular or high volume usage. Discount levels are subject to agreement with our local dealer/distributor, or local Cromwell branch and are relevant to volumes being purchased.

## Cancellation & Return Policy

### Cancellations

Orders cannot be cancelled once they have been despatched by Cromwell or one of its suppliers. For products requiring special manufacture, cancellation will not generally be allowed once the manufacturing process has commenced.

### Returns

Products may be returned to Cromwell for credit or refund by way of the following procedure;

- 1 A returns number or authorisation should be obtained from Cromwell prior to returning goods, advice note or invoice number needs to be quoted.
- 2 Products must always be returned unused in their original packaging and in a condition that is immediately fit for resale.
- 3 Returns must be made within 14 days of the advice note date of delivery unless special authorisation has been agreed.

### Conditions

- (i) A re-stocking charge will generally be applied for products that are no longer required or returned due to customer error.
- (ii) Certificated/calibrated products may not be eligible for return due to conformity regulations included in our accreditation certification.
- (iii) Cromwell reserves the right to refuse to accept any products or to apply a re-stocking charge that relates to the actual cost of inspection and re-stocking for products returned that do not comply with the terms of this policy.

This policy excludes software products and/or products supplied under contract where the terms and conditions of the contract will rule.

This policy is part of our terms and conditions of sale but does not affect the customer's statutory rights as a consumer. Cromwell accepts no responsibility for any loss or damage to products in transit.

**ALL RETURNS ARE SUBJECT TO 100% INSPECTION BEFORE RE-STOCKING TO ENSURE GOODS ARE FIT FOR RESALE.**

### Product Promotions

Special Offers are published regularly to pass on substantial savings on products that Cromwell have produced in volume. Leaflets are freely available from your local branch or representative.

### Prices are Correct at Time of Printing

Please contact us for latest pricing and details of our product promotions.

# INTERCHANGEABLE AND UNIVERSALLY COMPATIBLE

**SWISS+BURR**

**Interchangeable Deburring System**

Compatible with Kennedy, Noga, Ruko, Seco, Snap-Tap and Stellram brands.

**GROUP 109**

- Ergonomically designed handles to reduce muscle tension and the risk of repetitive strain injuries.
- Dual material - soft and hard for maximum hand comfort and non-slip grip.
- Spring release mechanism for fast replacement of blades and blade holders.
- Spare blades storage in the black cap.
- Premium grade HSS and carbide blades.
- Handles have a lifetime guarantee.

# SHATTER RESISTANT – VIRTUALLY UNBREAKABLE

## Industrial Holesaws

Designed as a fully interchangeable system to maximise performance and flexibility in producing holes from 14mm to 210mm ( $\frac{9}{16}$ " to  $8\frac{1}{4}$ ").

**GROUP 050**

**Variable Pitch**  
Up to 40% Faster Cut

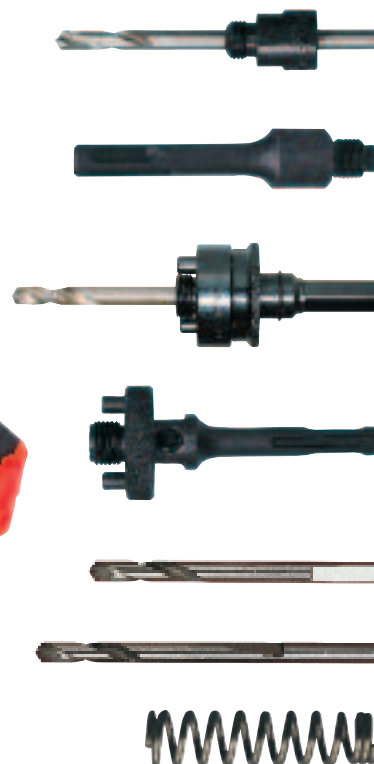

**Constant Pitch**  
For Sheet Materials

**Carbide Tipped**  
For Alloy Steels & Tiles

- Shatter resistant construction – virtually unbreakable.
- Hardened cutting edges for improved performance and increased tool life.
- Constant and variable pitch saws.
- Variable pitch cuts up to 40% faster than most constant pitch saws in the market, and reduces operating noise by disrupting harmonics.
- Premium grade Bi-Metal and Carbide Tipped Saws.

## PEAK POWER = PEAK PRODUCTIVITY

**SWISS+TECH**

**PEAK POWER**

Peak Power is the latest edition to the Swiss+Tech range joining other high performance technologies such as Q-Coat to produce powerful milling performance when cutting difficult materials - even at high speed.

**GROUP 061**

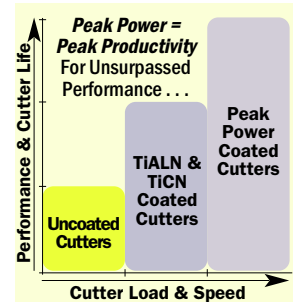

HSS-E PM Fine Pitch Ripper

HSS-E PM End Mill

HSS-E PM Ball Nose Slot Drill

- “State Of the Art” Powdered Metallurgy Coating.
- Designed to provide strength, rigidity and reduced vibration / chatter at high operating speeds.
- Greater wear resistance and hot-hardness technology to increase productivity and reduce manufacturing costs.
- Suitable for dry cutting applications.
- Higher oxidisation resistance.
- Withstands high thermal loads associated with high speed applications.

See **GROUP 061** for more information on this product.

## MAXIMUM COMFORT – NON-SLIP GRIP

**KENNEDY PROFESSIONAL**

File Handles are designed to work in perfect harmony with Kennedy Files, offering improved levels of user comfort, safety and performance.

**GROUP 531**

- Ergonomically designed handles to reduce muscle tension and the risk of repetitive strain injuries.
- Symmetrical handle allows use of both sides with the same level of comfort.
- Two components – soft and hard for maximum hand comfort and non-slip grip.
- Handle covers the file tang and shoulder completely to reduce the risk of user injury.
- Design incorporates a hole for hanging the tool.
- A Lifetime Guarantee, as do many other Kennedy Professional Products.

**Please look out for the Lifetime Guarantee feature within the catalogue.**

# LIGHTWEIGHT DESIGN – HEAVYWEIGHT PERFORMANCE

Featuring a lightweight, yet strong and durable design, Kobe Air Tools combine powerful performance with operator friendly features and superb value.

**GROUP 270**

## KOBE

Offering high quality and superb value combined with the design elements of a modern industrial classic.

### RED LINE

**DESIGNED FOR INDUSTRY**

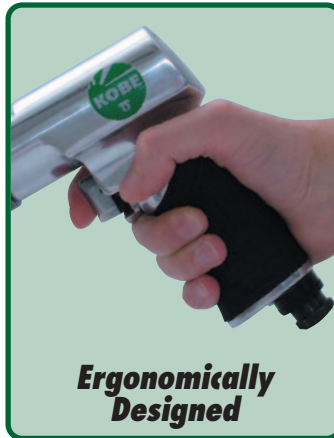

## KOBE

Ergonomically designed with operator friendly features for improved comfort throughout longer periods of use.

### GREEN LINE

**OPERATOR FRIENDLY**

## KOBE

Higher specification offering user comfort and maximum durability - designed for continuous use.

### BLUE LINE

**CONTINUOUS USE**

## UP TO 20% MORE JAW CAPACITY

**KENNEDY  
PROFESSIONAL**

The cushion grip range of adjustable wrenches has more functions than any other adjustable wrench making it possible to use hand strength in the most efficient way, whilst protecting against work injuries.

**GROUP  
501**

- Up to 20% more jaw capacity than conventional adjustable wrenches, with less than 0.5mm play in them even at full opening.

Kennedy Professional  
150mm Wrench  
Jaw capacity: 24mm.

Conventional  
150mm Wrench  
Jaw capacity: 20mm.

- Unique grooved jaw for safer and positive grip even on damaged fasteners – passes the tough 6 flats tightness test.
- Tapered jaw profile for use in confined spaces.

- Jaw retention feature prevents the moving jaw from falling out even at maximum opening.
- Geometric design provides high strength and more torque than most other products.
- Ergonomic design with oil and grease resistant (anti-slip) cushion grip to give good balance, and even distribution of pressure in the hand reducing the risk of work-related injuries.

See **GROUP 501** for more information on this product.

## HANDY POCKET-SIZE TOOL

**KENNEDY  
PROFESSIONAL**

Kennedy Professional Pro-torq hex key sets feature the most commonly used hex keys in one handy, pocket-size tool.

**GROUP  
603**

- Supplied in a robust impact resistant plastic clip.
- The clip permits work easily in different positions. In the 180 degree position the clip can be used as a screwdriver. Positive stop at 270 degree open, mostly used for extreme turn, like a t-handle. Any degree between 90 and 270 can be selected depending on the working situation.
- Key sizes are marked for easy identification.
- Dual material handle provides a good and comfortable grip.

## GRIPS FASTENERS UP TO 95% ROUNDED OFF

**KENNEDY**  
PROFESSIONAL

The Ken-Grip® side drive range of socket offers a new standard of performance with the ability to grip fasteners which are up to 95% rounded off.

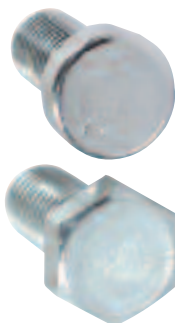

**GROUP**  
**582**

**KENGRIP®**  
Patented Design

**NEW**

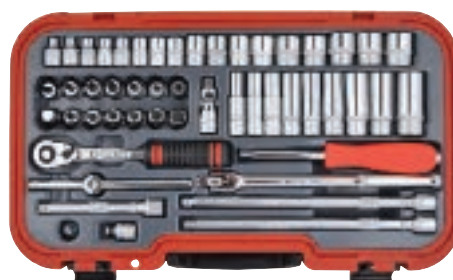

*Will grip fasteners  
which are up to  
95% rounded off.*

*Will grip new, worn  
and rusted fasteners  
without damaging  
them further.*

- A unique patented socket design grips new, worn and rusted fasteners without damaging them further.
- Will also fit a wide range of non-metric Hexagons, E-Torx® and Spline Drive Sizes.
- Double knurl feature gives a high grip which is essential for quick tool change when hands are greasy or oily.
- Socket sets supplied in robust fitted case with security padlock hole and cushion grip handle.

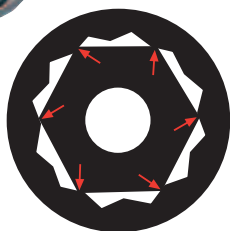

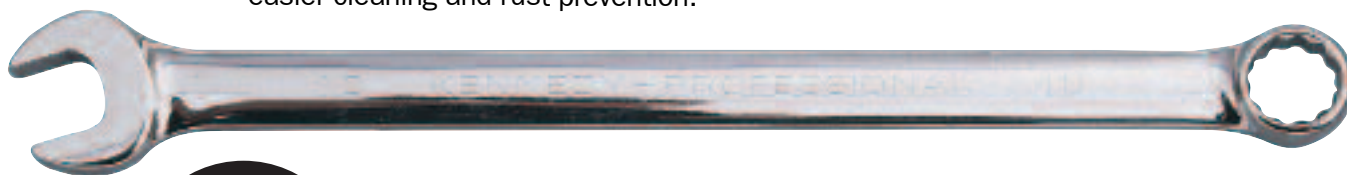

See **GROUP 582** for more information on this product.

## PERFORMANCE, STRENGTH & VALUE FOR MONEY

**KENNEDY**  
PROFESSIONAL

The WALL DRIVE bi-hexagonal Kennedy combination spanners are made from premium grade chrome vanadium steel with a highly polished mirror finish for easier cleaning and rust prevention.

**GROUP**  
**582**

Conventional Spanner Surface  
Contact with a Fastener.

WALL DRIVE Spanner Surface  
Contact with a Fastener.

- WALL DRIVE profile maximises the life of the tool, as well as that of the fastener (nut or screw). The spanner does not touch the corners of the fastener so it avoids rounding them, and the torque is applied directly to the sides of the fastener which improves work holding and performance.
- Spanner fitting tolerance according to ANSI B107.6 standards.
- Long reach for increased torque without deformation of the spanner end.
- Slim-line design for user comfort and easy access to difficult places.
- Conical shape on both sides of the ring end to introduce the fastener head more easily.
- Lead-in chamfer on the open end.
- In independent tests scored as well as more expensive brands for performance, strength and value for money.

See **GROUP 582** for more information on this product.

## PERFORMANCE WITHOUT COMPROMISE

**KENNEDY  
PROFESSIONAL**

Pro-torq pliers are made from specially selected steels and materials to enhance user comfort, increase tool life and deliver performance without compromising on the strength of the tool.

**GROUP  
558**

- Ergonomic dual material handles combine a polypropylene core for strength and durability with a soft thermoplastic outer layer for a non-slip and anti-fatigue comfort grip.
- Slip guard protection to protect the hand and work piece.
- Surface treated for optimum corrosion resistance.
- Progressive cutting edges allow you to cut soft thin wire close to the tip, and hard wire closer to the screw.
- Self-locking jaws are designed to grab the work piece in multiple places, giving stability and supporting the grip.

See **GROUP 558** for more information on this product.

## 20% THICKER BLADE

**KENNEDY  
PROFESSIONAL**

Precision tape measures for the professional user are designed to meet EEC Class II standards for accuracy and horizontal and vertical stand-out.

**GROUP  
536**

- 20% thicker high grade carbon steel blade, with nylon coating for longer life.
- Automatic locking system that locks the blade in place during use until you press the release control.
- Double riveted magnet tips for improved accuracy. Great for hanging tapes from metal surfaces to take hands free measurements, or used as a pick-up tool.
- Graduated measurements on both sides of the blade for precise marking and drawing, and to make it easier to measure walls and ceilings.
- Impact resistant case with secure belt clip.

# RANKED 1st FOR QUALITY, DESIGN & VALUE

**KENNEDY**  
PROFESSIONAL

High quality tools deserve high quality tool storage systems. Kennedy superior quality roller cabinets and tool chests are designed to meet and fulfil the high standards demanded by the Professional user.

**GROUP**  
**594**

Piano hinges for smooth opening and extra security.

Drop down lid front. Lockable for security.

Tote tray supplied with some chests.

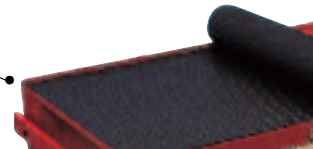

Heavy-duty moving handle. 90° stop for easy carrying.

Lid stays ensure the lid stays up when open.

Heavy-duty side handles.

Protective top mats prevent scratching and reduce noise.

Full extension for smooth operation and easy access to tools at the back of the drawer.

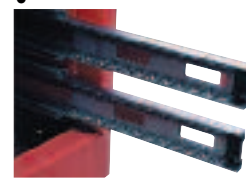

Double runners to distribute the load of the high capacity drawer for smoother operation.

125mm Industrial swivel castors, two with foot brakes. With regrease nipple for continuous smoothness.

Protective drawer liners prevent scratching and reduce noise.

With ball bearing runners for smooth operation.

## What the trade says...

*“Not to be confused with cheaper products in the market place Kennedy roller cabinets have been ranked 1st for quality, design and value for money in the UK. Reviews state that everything about the cabinets is well designed, almost to the point of being over engineered in terms of the build and component quality. The large wheels for example are metal with rubber strip tyres around their edges. There are even grease screws fitted, so the bearings can be lubricated. All drawers feature positive stop resistance, which means they do not need to be locked prior to moving the cabinet. Roller bearing slides are also used throughout, and even the keys offer higher than normal security design.”*

**The range also includes stainless steel options for use in the food processing and hygiene sectors.**

## HEAD TO TOE PROTECTION

**TUFFSAFE**

When it comes to personal protection, never compromise on quality because the cost of using inferior equipment could be terminal.

**GROUP  
957-963**

The Tuffsafe product range offers complete head to toe protection. Produced to the highest industry standards, Tuffsafe products deliver quality, durability and personal safety without compromise.

- Helmets conform to EN397:1995
  - Shock Absorption.
  - Resistance to penetration.
  - Resistance to flame.
  - Up to 5 year protection (in accordance with EN397 the shelf life of helmets is 5 years from date of manufacture).
- Made from high density ABS material, and fully vented for breathability.
- 8 point adjustable strap to ensure a safe comfortable fit.
- Fitted with a sweatband and ear defender slots.
- Available in a range of colours including white, yellow, blue, red and orange.

See **GROUP 957**

- Ear defenders conform to EN352-3:2002.
- Cups made from impact resistant materials.
- Acoustic foam filling that offers excellent attenuation to SNR27dB.
- Clip-on ear defender compatible with helmet range.

See **GROUP 958**

- Particulate respirator mask conforms to EN149:2001 and A1:2009 FFP1 NR D.
- Fringe seal to avoid open layers around the edges.
- Easy flow and exhale valve for extra comfort in hot and demanding conditions.
- Sweat absorbing nose foam (silicone/latex free).
- Adjustable nose-bridge for a customer shaped fit.
- Twin elastic headbands.
- Double shell construction (collapse resistant).
- Contoured so that the mask can be worn with glasses/goggles.

See **GROUP 959**

- Faceguards conform to EN166:2001.
- Optical class 1 Polycarbonate visor.
- Visor carrier also available.

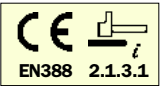

See **GROUP 960**

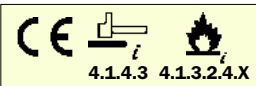

**Nappa Palm Riggers**

- Conform to CE Directive 89/686/CEE and EN388 Category 1 Standards.
- High quality pig grain leather offers water resistance and durability (will not rip easily).
- Heavyweight elasticated cotton drill backing.
- 2" (50mm) cuff with arterial protection.
- Fully double stitched seams for increased wear (life expectancy), and reduced risk of splitting.
- Fleece lined for added wearer comfort.

**Tufflite™ Knitted Gloves**

- Conform to EN388:2003.
- Made from a nitrile foam coating on a 13 gauge knitted glove liner.
- Seamless construction for improved strength, increased wear (life expectancy) and greater dexterity.
- Elasticated cuffs to prevent roll down.
- Nitrile coating to the palms and fingertips for superior grip.

**Heavy Duty Welders Gauntlets**

- Conform to EN388:2003 and EN407:2004
- Made from premium grade split leather with a full breathable cotton lining.
- Full five finger glove for maximum dexterity.
- One piece back construction with re-enforced palm and thumb for increased wear (life expectancy).
- Fully enclosed seams to prevent burn erosion of the seamed areas.
- Kevlar sewn throughout the whole glove.

# CREATE EYE CATCHING PRODUCT DISPLAYS

## "Perfo" Panel Merchandising Display Stands

Universal stands suitable for displaying a wide range of products at shows or trade counters. Manufactured from durable mild steel in a choice of 2 colours.

Branded fascia panels sold separately

Display stands supplied with 320mm deep shelf and 40 hooks in 3 lengths to display a wide variety of products.

- 2 piece leg design and individual backpanel slats for convenient storage and transport size.
- Side and front kick panels.
- 240V illuminated header box with replaceable fascia panel.
- Hand adjustable rear tension wire and cross bar stabilisers for rigid construction.
- Units can be linked together to span any distance.
- Height adjustable feet to level stands on uneven surfaces.
- Dimensions (HxWxD): 1130/2260 x 1000 x 450mm.

### Contents:

2 x 2 piece legs, 2 x leg connectors, 2 x cross bar stabilisers, 6 x individual backpanel slats, 1 x shelf (not shown), 1 x 390mm deep base shelf, 1 x front kickplate, 40 x hooks (15 x 75mm, 20 x 150mm, 5 x 200mm), 2 x tension wires & adjusters, 1 x Header lightbox with plain white panel.

Branded fascia panels sold separately.
